

Tangler

By Bruce Lambert
Winner of the World Cup 2003

Specifications

Sail	Ultra-light orcon
Bow	.06" carbon rod, 24 $\frac{9}{16}$ " or 624mm long
Spine	Bamboo at 18 $\frac{1}{4}$ " or 464mm long
Battens	.03" carbon rod 5" or 127mm long

This was one of the 2 fighters used in the finals of the world Cup held at WSIKF in August 2003.

This fighter can be built using the techniques I describe on the plan page of the NFKA site at www.fighterkites.org. Enjoy building and flying the Tangler. Use it as part of a jumping off point to do your own experimentation with fighter design.
